FISH TENDERS RESIGNATION.

Document Was Forwarded To Governor
Broward Yesterday.—It Takes
Effect January 1, 1907.

County Superintendent Bert Fish yesterday forwarded to the Governor his resignation, of which the following is a copy:

DeLand, March 13, 1906.

Hon. N. B. Broward, Governor, Tallahassee, Fla.:

My Dear Sir:—I hereby tender my resignation as Superintendent of Public Instruction of Volusia County, to take effect January 1, 1907.

On yesterday I notified the Democratic Executive Committee of Volusia County, at their meeting held in DeLand, of my intention to resign as stated above.

I tender you this, my resignation to take effect January 1, 1907, at this time for the following reasons:

When a candidate for re-election before the last primary, I stated to the voters of Volusia County that if at any time my other duties conflicted with my duties as Superintendent of Schools, I would resign. My law practice is increasing to such an extent that it requires my undivided time and attention, and I feel that if I should retain the office of Superintendent of Schools until my term will have expired, I must either neglect my duties either to my profession, or to the office that I now hold. Most certainly the interests of the public schools and the school children are paramount to all other interests, and as I have never in the past in any way neglected them, I have no intention now of doing so.

It would be difficult indeed, without a serious detriment to the Public School interests, to place them in new hands just at this time. A number of our

schools have closed, others will soon close, and a number of special tax school elections are to be held in May, and in the month of June is the semi-annual teacher's examination, and in the month of July appointments of teachers are to be made as well as the summary for the next school year's work, and arranging for the coming year. These are but a few of the many reasons why a change should not be made at this time.

Again, our school treasury is in better condition than it ever has been before, because of the wise management of the Board of Public Instruction, and as a result it is my belief that we will have a balance to begin the next school year's work with of not less than \$12,000. Probably quite a little sum larger than this. There are some improvements that I very much desire to see made before turning the office over to my successor, such as the purchasing of dictionaries, maps, charts, painting and repairing school buildings, etc. Our schools open for the next year's work in September and October, and I believe that by January my successor, who should be elected at the November election, could easily take charge of the work.

It is my desire and intention, that the people of the county may select my successor at the November election, and it is with that end in view also, that I ask that my resignation take effect Jan. 1, 1907. But, if your Excellency should consider that there is not a vacancy to be filled at the November election, I should be glad to change the date at which my resignation is to take effect to November 1, 1906. I beg to remain

Yours obediently,
BERT FISH.

GOOD ROAD CONSTRUCTION.

Commissioner McBride Builds Good Roads For Two Hundred Dollars Per Mile.

As an evidence of the cost of Florida roads, a reader sends in the following clipping from the DeLand News of February 15th:

"After leaving the De Leon Railway station, we came upon the graded road recently completed. The road runs through the flatwoods—a similar country to that through which the DeLand-Daytona road passes. This road was dumped, ploughed and harrowed forty feet wide, then crowned by the road machine purchased by the county last year. The grading of the eight miles of road—all the work put on the road—cost \$1,500 or a little less than \$200 a mile."

The persons who sent the above for publication asks if it would not be wise to get Commissioner McBride to build the proposed road from Daytona to DeLand.

Mr. and Mrs. Ira H. Hilton left Tuesday for their home in Tarrytown, N. Y. They expect to return to Daytona Beach in November. Mr. Hilton recently let the contract for the erection of a cottage on the beach front, to J. N. Whitman.

Library Building.

The foundations for the new Library Building on the City Island, have been completed, and the force of workmen have been busy for the past several days making concrete blocks to be used in the construction of the building. F. B. Penor is the contractor, and J. P. Turner is superintending the work of constructing the concrete blocks. The building, when completed, will be an ornament to the island, and will reflect credit on the members of the enterprising association, who have gathered the funds, and who are pushing the work.

Burned By Gasoline.

O. L. Burnett, a tailor who has his place of business on Cottage Avenue, had his left hand and arm badly burned late Wednesday afternoon. Mr. Burnett had a can of gasoline in his hand, and was in close reach of a stove. The can was leaking, and it became ignited. The wounds are painful, but not serious.

Mrs. T. Longstreth, Mrs. C. Frisstone, Mrs. D. McLaren, Columbus, Ohio, are sojourning at The Clarendon.

Delbert McLain and William Gates, two young men who have been camping at Daytona Beach for the past several weeks, left Wednesday for Carleton, Fla.

RESIGNATION OF REV. SHOEMAKER.

Pastor of The First Baptist Church Will Leave About April 1st. His Successor Not Yet Found.

At a business meeting of the trustees of the First Baptist Church held Wednesday, the resignation of Rev. T. V. Shoemaker was received and accepted, to take effect on or before April 1st.

The resignation of the pastor came as a surprise and but very few were aware of the fact that he intended to leave the church. Since coming to Daytona in November 1901, he and his family have made many friends, who will regret to learn of their intended departure.

Rev. Shoemaker is an Abamian, and came here from Demopolis. He has filled the pastorate of the church in a capable manner, and has ever been on the alert looking to the best interests of the church.

No action towards selecting his successor has yet been made.

Lecture.

Quite a crowd was present last evening to listen to the lecture given by Rev. C. De W. Brower, the subject of which was "Through Egypt to Nubia." His remarks were very interesting, and those present greatly enjoyed the lecture.

COURT DATES CONFLICT.

Judge Stewart Will Adjourn Criminal Court
Until April 24th.—Circuit Court
Convenes On April 9th.

Owing to the fact that Circuit Court convenes on April 9th, the same date that the next term of the Criminal Court should be sitting, Judge Stewart has decided to continue the latter court until April 24th. Witnesses and others having business before this tribunal will save themselves an extra trip to DeLand by governing themselves accordingly.

For the coming term of the Circuit Court a grand jury will be drawn to enquire into such matters as may come before it. Charlie Williams, a negro, is the only prisoner in jail who is charged with murder, consequently his case will be the only murder case for the grand jury to investigate. Williams is charged with the murder of another negro by the name of Cal Stevens. The crime is alleged to have been committed near Pierson, about two years ago. Williams immediately disappeared, and has been giving the officers a lively chase ever since. He was located at Green Cove Springs a few weeks ago by Sheriff Turner, since which time he has been in jail.

The Continental.

The Continental, one of the hotels of Florida East Coast Hotel System, opens today at Atlantic Beach, under the management of Henry E. Bemis. The railway company has made arrangements to operate an automobile railway car between Jacksonville and Atlantic Beach. The car is modern in every way and is far in advance of anything ever seen in the South.

J. R. La Sha, the electrician, has moved his store to the building recently vacated by Dr. J. M. Jones, on North Beach street.

The ladies of the First Methodist Church are making arrangements to give a bazaar in Epworth Hall, on the afternoon and evening of March 22. Many fancy articles are being made and will be placed on sale.

FOR SALE.

Reo Runabout—1906 Model. Used but two months. Fine order, with extra tire, search light, etc.

Pianola—Self-playing piano attachment. Several hundred rolls of popular and classical music. Plays beautifully and any one can play it.

Companion Tricycle—For two riders, seated side by side. In good order, with new extra set of tires. All the above will be sold at low prices to avoid expense and risk of shipping North. May be seen at any time at 121 Palmetto Ave. 15-31 C. C. MELLOR.

A Poem for Today

TO MY LOVE

By William Browne

SHALL I tell you whom I love?
Henken, then, awhile to me,
And if such a woman move
As I now shall verify
Be assured 'tis she or none
That I love and love alone.

Nature did her so much right
As she adorns the help of art;
In as many virtues dight
As e'er yet embraced a heart;
So much good, so truly tried,
Some for less were defied.

Wit she hath without desire
To make known how much she hath.
And her anger flames no higher

Than may fitly sweeten wrath;
Full of pity as may be,
Though perhaps not so to me.

Reason masters every sense,
And her virtues grace her birth;
Lovely as all excellence,
Modest in her most of mirth;
Lifelikeness enough to prove
Only worth could kindle love.

Such she is, and if you know
Such a one as I have sung,
Be she brown or fair or so
That she be but somehow young—
Be assured 'tis she or none
That I love and love alone.

EGYPTIAN SERENADE

By George William Curtis

PROMINENT among the literary men of two or three decades ago was George William Curtis, author, editor, lecturer and public man. He was born in Providence, R. I., in 1824 and died on Staten Island, N. Y., in 1902. He was the youngest member of the famous Brook Farm colony. Later Mr. Curtis became a traveler, lecturer and magazine editor. For many years, until his death, he was connected with Harper's. "True and Free" is his best known book. Mr. Curtis wrote much in prose form, but left only a few poems.

SING again the song you sung
When we were together young
When there were but you and I
Underneath the summer sky.

SING the song, and o'er and o'er,
Though I know that nevermore
Will I see the song you sung
When we were together young.

HOTEL NEWS

Robert Friend, of Atlanta, was an arrival at The Ridgewood this morning.

Mr. and Mrs. J. F. Spaulding are representing the Hub City in the recent arrivals at The Ridgewood.

The guests of The Ridgewood will enjoy a card party Friday evening in the parlors of that hotel.

Mr. and Mrs. William Wenz and Mrs. Helen R. Adams, of New York City, are stopping at The Ridgewood.

Chicago is represented in the recent arrivals at The Clarendon by Mr. and Mrs. C. B. McDonald, Miss C. F. Guenther, W. Guenther and Mrs. James McIntire.

Mrs. Henry Itner, Mrs. Samuel J. Parker and Miss Parker of West Chester, Pa., are a pleasant trio who are enjoying the attractions of the city. They have accommodations at The Ridgewood.

Mr. and Mrs. E. O. Locke, prominent residents of Birmingham, England, and their two interesting little children, who have been stopping at The Despland, left this morning on a visit to Rockledge.

On Monday evening, at The Ridgewood, Mrs. E. Hart Fenn, of Hartford, Conn., gave a bridge party in the sun parlor. The guests were Dr. and Mrs. P. H. Ingalls, of Hartford; Mr. and Mrs. James Moore, Mr. and Mrs. William Baldwin, Mrs. Henry Doughton, Dr. and Mrs. Caswell, Mr. and Mrs. Stock, Dr. and Mrs. Seelye.

The reporter walked into one of the hotels this morning in search of news. The proprietor was standing near the desk, and the scribe said to him: "You look greatly pleased." The hotel man replied by saying: "I have reason to be. My hotel has been full to overflowing for several days, and I am on very good terms with my neighbors, as I have sent those whom I cannot accommodate for them to take care of."

The guests of The Clarendon are having a round of pleasure this week and every evening there is something in the way of entertainment at the big hostelry. The arrivals of Tuesday and Wednesday were very heavy and the house is nearly filled. Miss Taylor, the toe and fancy dancer, entertained the guests on Wednesday evening, which was followed by a dance and proved a very pleasant occasion. The Clarendon Smart Set Troubadours will hold the board in the Clarendon Casino on Friday evening. A cake walk and vaudeville show will be among the features of the entertainment. Saturday evening the regular weekly hop will take place and the society elements of the city and the hotels are looking forward with much pleasure to this occasion.

**LINGERING IN
SUNNY FLORIDA.**

Hotels Well Filled and Northern Travel
Is Light.—Many Pleasures in
Store For Northern Guests.

According to a report given out, the
North bound travel at present is lighter
than it has been during any correspond-
ing period in past seasons.

Although the weather has been
rather warm, the tourists are re-
maining at the various resorts through-
out the State and are enjoying the
balmy Florida climate as only a North-
erner can.

All of the leading hotels along the
east coast, west coast and middle Florida
as well as the smaller houses, are all
open and are well filled with tourists.

The fact that the tourists are still re-
maining in Florida is evident from the
fact that no hotel help has been moving
northward as yet, showing that they are
all employed.

While the visitors are leaving for the
North every day, they are going in no
great numbers as yet, and too, every
day they are coming from the North to
spend a while in Florida.

A great many of the tourists make a
mistake in leaving Florida when the first
warm spell comes on. This is the time
to enjoy the balmy Florida climate.

Moonlight river excursions, surf bath-
ing, etc., which is never enjoyed in the
North as it is in Florida, are the chief
attractions. The various resorts offer
many attractions at this season of the
year, when the heavy wraps are laid
aside and the visitors can attire them-
selves in white duck suits and enjoy life.

It is predicted that the tourists now
in the State will linger longer than dur-
ing any previous season. Those now in
the large hotels throughout the State
have no idea of departing yet as they
are now only commencing to enjoy the
real Florida sunshine.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bulow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lordly live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bays and camellia-berryed holly, and many other varieties, while in many places the wild grape, the trumpet vine and the ampelopsis climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. This river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street, which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, marled and shelled roads and streets, rendering it the

Wheelman's Paradise

and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages

that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an open house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply

which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia at

and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona

proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach

lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona beach.

Automobile Race Meet.

The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as untrammeled, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bared for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Behind these, miles of hard-shelled, palm-fringed boulevards bring the lovers of the wheel and vehicles into direct touch with the mainland over the broad bridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebb tide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the grey-haired veteran of many summers, can safely enjoy the luxury of a swim throughout the larger part of the year, while the strong and expert swimmer can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula

lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, a large hotel and two ocean piers, beach villas and a large casino.

A Remarkable Feature

at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying. Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona.

At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this summy fish in an afternoon. Individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing, and the varieties that abound in the river are present in the river. Hunting and fishing good. Exotic and native birds and dogs may be had at reasonable prices.

Quite a party enjoyed a moonlight ride on the river Tuesday evening, in the launch Maxine.

Miss Pearl Spaulding left Wednesday evening for DeLand, where she will sing with the Stetson Glee Club next Tuesday evening.

Mrs. D. D. Rogers is expected home today from the extension of the East Coast Railway, where she has been on a visit to her son, Clarence M. Rogers.

hotels, laundry, meat markets, novelty
works, an opera house, electric lights
for street and house illumination, a
good telephone system, ice factory,
Lily Water Works, and hot and cold
baths, etc., and everything else can be
procured that is necessary to make
life comfortable. An important fea-
ture in the healthfulness of this town
is the

Water Supply
which is derived from numerous
flowing wells, of which there are prob-
ably 300 in the corporate limits. This
flow is secured by boring wells to the
depth of from 50 to 120 feet, passing
through several strata of rock, and
this depth assures purity from all
surface contamination. The water is
slightly impregnated with magnesia at

and iron, and holds sulphur in the
shape of gas, which soon passes away.
The Population of Daytona
proper is about 1,800. Added to
this is a suburban population on main
shore and peninsula of about 1,000 at
Kingston, Blake, Old Seabreeze or
Goodall, Seabreeze and Silver Beach
which are properly a part of the town
and population.

Daytona Beach
lies one mile east of the town. It is
approached by three good bridges
over the river and well-graded ave-
nues, and is the principal summer re-
sort south of St. Augustine. It has
more tourists during the summer than
all other places south of that city com-
bined, and is also becoming a favorite
winter resort. The beach is wide,
firm and smooth, by many considered
the finest in the world, and the surf
bathing is safe and excellent summer
and winter. People who have tried
Northern and Western summer resorts
declare that there are none so perfect
comfort as Daytona beach.

Automobile Race Meet.
The Florida East Coast Automobile
Association conducts an annual race
meet on the beach, which has now a
universal reputation as the greatest
automobile race course in the world.
The Daytona-Ormond Beach is hard
as macadam, and an ideal stretch
of thirty or more miles without a
break makes it the natural racing
ground for America.

At low tide the beach is bare for
300 feet and a leather carriage wheel,
bicycle or pedestrian can make a
hardly visible imprint on the smooth
and well-packed sand. It is no un-
common sight to see sail-rigged bicy-
cles speeding with the velocity of the
wind before a stiff breeze along the
smooth beach, thus affording the most
exhilarating sport known to man. Be-
sides these, miles of hard-shelled, palm-
fringed boulevards bring the lovers of
the wheel and vehicles into direct
touch with the mainland over the
broad bridges which span the splendid
Halifax River.

The beach from the sandy bluffs to
the lowest point at obbide, measures
about 500 feet, and the average depth
of the surf measures about two feet.
A continuous gentle swell rolls in
from the ocean from one to two feet in
depth under normal conditions, mak-
ing the beach an attractive and abso-
lutely safe place for surf-bathing.
Here the infant as well as the grey-
haired veteran of many summers, can
safely enjoy the luxury of a sea bath
throughout the larger part of the year.
While the strong and expert swimmer,
can venture out further to test his
strength and skill in battling with the
inexhaustible powers of the mighty
ocean.

The Peninsula
lying between river and ocean is one-
half mile wide, and is being rapidly
improved, and there are many fine cot-
tages and several good hotels, an
opera house, two ocean piers, beach
avilion and a large casino.

A Remarkable Feature
at Daytona has been the yearly im-
provement in the style and value of
the buildings that are being erected
for homes. Men of capital of the
North and West have become awak-
ened to the advantages for winter re-
sidences, and valuable lots are being
purchased and costly houses, beautiful
in design and finish, are being erect-
ed, and beautiful homes, the abodes
of wealth and culture are multiplying.
Seabreeze (City Beautiful) and
Goodall are settlements on the Ocean
side of the peninsula across the Hal-
ifax River from Daytona.
At the foot of Ocean Boulevard,
Seabreeze, a pier reaches 600 feet
across the beach into the swelling
surf of the ocean. This pier is a
favorite resort of those who delight
in the sport of fishing. The surf
here abounds in trout, pompano, yel-
lowtail, cavalle, whiting, drum,
sheepshead and many other varieties
of edible fish. During the fall season
the famous sea bass affords royal
sport, and it has been no uncommon
occurrence to land a thousand pounds
of this gamey fish in an afternoon.
Individuals of them ranging from
fifteen to thirty-five pounds in weight.
Not only does the ocean offer this
splendid sport but the Halifax River,
only half a mile back of the ocean, is
equally famous for its fine fishing,
and the varieties that abound in the
man are present in the river.
Fishing and fishing good. Ex-
tended miles and dogs may be had
at reasonable prices.
